

Full service solutions for work administration

Who, where, when? We have a solution for you to keep everything under control

We are applying the most advanced technologies and sensors thanks to which the JC360 solution for on-site workers (exclusively for stores, supermarkets, factory plants and construction sites) is not only a device but also comes with a fully integrated service package.

Track. Analyze. Improve.

to build a better aligned workforce with more efficient operation.

Could your team perform better?

Find it out for yourself within a matter of days and maintain the best business operation by keeping everything on track and under control with the help of our innovative services.

JC360 RECEIVERS

Various types of receivers can be provided and can be safely placed in the site area even in extreme circumstances, always customized to the environment of use.

JC360 is the solution to control and motivate your team, anytime from anywhere.

The employees only need to wear a simple sensor on their uniform, everything else is completely automatic. JC360 is an integrated service through which you can track, measure and analyze what each employee does.

One of the many benefits of using this unique innovative solution is that it also completely eliminates the need for spending time on worktime administration.

JC360 SENSORS

Each of the devices are dustproof, waterproof. The small long-life sensors can be easily attached to any uniform.

Staff management made easy, transparent and hassle-free.

Using JC360 is the simplest and most reliable service and method to make sure: everyone is doing their best, always works on time and exactly at that site where they need to.

All in one, from accurate data collection to executive reports, completely customizable to your business operation.

Increase the active time occupancy by 10 % or even more. Attain complete staff visibility in real-time.

 **Peter Williams**
GROCERY
Status: Active (in motion)

Today's working time: **7:12**
Start at: **08:09**
10 minute breaks: **4 (0:42)**
Lunch break (30 min.): **1 (0:26)**
Break time breach: **1 (0:02)**

Weekly working time: **39:12** 40:00 **Δ -0:48**
Monthly working time: **175:12** 176:00 **Δ -0:48**

Analytic Reports that make precise execution possible.

Have you always wondered: How punctual your employees are? Is everyone performing at their best? Is everyone working on the site where they need to be?

You will gain all the accurate and relevant information about your workforce so that you can easily measure and compare:

- punctuality, late arrival or leaving before time
- total daily, weekly, monthly work hour spent on each activity and location
- individual indexes based on work attitude
- time spent on given location, e.g. in a department, on a plant (productive / non-productive work time)
- breaks and recreational time

Benefit from a 100% trustworthy and automated data collection technology.

Gain real-time reports on all work-hour related cost by projects and teams. Get a detailed overview about any chosen period within a second. Produce comparative analysis easily anytime.

Using the most advanced technologies will provide you with many further ways to support, improve and maximize the efficiency of your workforce and business operation.

Skyrocket your team's performance efficiency.

Help all the workers reach their best performance by implementing an absolutely fair motivational system based on the measured data. Comparing the planned and actual production has never been easier.

Facilitate a more cost-effective operation and benefit from the innovative services of JC360. Time to focus more on what matters; your productive work.

- Use the most flexible system to precisely handle employees and sub-constructors
- Save time by drastically decreasing work-time related administration
- Provide a massive help for shift-leaders to keep track of all the working staff
- Easily track the amount of money spent on work in any hour on any site
- Create an efficient and punctual time-based cost-accounting system with partners and sub-contractors

Start making better decisions now.

"On our site there are close to a 1000 people working every day but the implementation was very smooth, professional and fast. The project leaders from the JobCTRL team did an excellent job."

Györgyi Perzse, Vice-President of KÉSZ Holding Zrt.

"JC360 is a necessary help for me. I don't need to think about work time related disciplinary procedures anymore. I only need to pay attention to the quality evaluation of my staff."

Balázs Uhrinyi, Executive Director of KÉSZ Ipari Gyártó Kft.

"I regard it a great success that we could increase the ratio of active work time. I love the comparative analysis the best, they are brilliant. It increased punctuality within our employees which has resulted in higher quality production."

Juan F., Managing Director at MGI, Mexico

Expertise you can Trust.

JC360 is a service and methodology that is based on the innovation grand prize winner technology under the patent of JobCTRL, issued in San Francisco, USA. Get in contact with our expert team at your earliest convenience.
